

WIRELESS FLASH BREAKS RECORD

Government Message Is Sent
by Air and Wire Half Way
Around the World

A government message from St. Petersburg for the Russian warship Taymir, cruising in Siberian waters, after traveling half way around the world, was transmitted from the United States radio station at Nome to Anadir in the Gulf of Anadir, and set the record as the first actual message sent by wireless from the American continent to Asia.

The cablegram from St. Petersburg, via Europe and New York city, holds the additional record for distance for commercial messages sent by cable and wireless. The New York cable office sent the message over the Western Union lines to Seattle. It was sent by cable from the signal corps here to Sitka, relayed to Valdez, and from Valdez was transmitted by the land telegraph line to St. Michael, via Fairbanks, and from the St. Michael radio station to the Nome radio station flashed the message to the Anadir station in Russia.

From Russian Capital October 22. The message was dated from St. Petersburg October 22 and reached Seattle on this date on account of the difference in time between cities. The distance between St. Petersburg and New York, via London, is 5,570 miles; from New York to Seattle approximately 3,000 miles and from Seattle over the circuitous signal corps system, 3,000 miles, a total of 11,570 to Nome from St. Petersburg. This distance was increased by many miles before the message finally reached its destination on board the Taymir.

CHILDREN AID IN MAKING THE CITY BEAUTIFUL

Healthy strides towards a greater "City Beautiful" were taken yesterday afternoon when the pupils in practically every public school in Honolulu planted trees and shrubs in observance of Arbor Day, which has become a nation-wide celebration.

Catching the spirit of the occasion, the older and more sedate residents took a hand in the campaign, and in future years many parcels of private property will have been benefited by yesterday's work.

The government nursery proved to be the center of attraction for children and adults, for more than 1,000 trees and still more potted plants were given away to all those who wished them for decorative purposes. Property holders who applied were given their choice of a variety of selected plants, and school children by the hundreds, representing every nationality, came for trees, shrubs and plants. A list of the trees distributed follows: Blue gum (eucalyptus globulus), lemon gum (eucalyptus citriodora), swamp mahogany (eucalyptus robusta), monkeypod (albizzia saman), pride of India (mellia azedarach), silk oak (grevillea robusta), sugi or Japanese cedar (cryptomeria japonica), royal poinciana (poinciana regia), pink shower (cassia grandis), golden shower (cassia fistula), jacaranda (jacaranda mimosifolia), yellow poinciana (peltophorum ferrugineum), pepper tree (schinus molle).

WOMEN HEAR OF HONOLULU TRIP

[By Latest Mail] SAN FRANCISCO. — An interesting lecture was presented before the members of To Kalo at their regular social meeting. Mrs. Ella M. Sexton, who has just lately returned from the islands, gave the variation, "Seeing Hawaii in a Woman's Way." A most interesting way it proved to be, many of the personal visions which catch the feminine eye being introduced in a poetic manner. The color of the islands and the mountains were reflected in the lecture.

Beautiful pictures, unusual in many respects from those ordinarily presented, were a part of the lecture. Mrs. George Mullin, president of To Kalo, presided and introduced Mrs. Charles Ker, chairman of the day, who had charge of the music. Preceding the program work, a test of musical interpretations was given by Miss Ruth Thompson, who afterward played her own compositions. "Kamemol Ostraw" by Rubenstein was also played.

Mrs. Mabel Tournay White, lately from a concert tour of New York, sang a group of songs responding to her enthusiastic reception from the To Kalo members, with an encore which displayed her vivacity as well as her voice.

KOHALA MIDGET HAS BREEZY-BIG ISLAND NEWS

Among the interesting items in the Kohala Midget this week are the following:

"We are never too old to learn, but we can get too old to be stung." This is a statement made by a Japanese houseman on the 1st inst. at Kula, Hawaii, when Capt. David Makaku, of the Hamakua mounted police, endeavored to collect a sum of money from each man that tried to start his horse in a race, that was in progress on that date. The Japanese man went to a gentleman that happened to be present and explained the situation. Then, in order to have the race continue, this gentleman went to Makaku and asked the reason for this unusual performance of duty on his part. At that, the brave captain of the tin-whistle brigade stated: "I am boss, I am captain of the police," and became quite impudent. It does not look like peaches and cream for the present captain holding out very much longer.

The Kohala graft hot air has blown away, without a single indictment. It was largely newspaper space-filler. In doubt there has been some petty grafting, bribe-taking, etc., but the trouble is to get witnesses to substantiate it.

During Monday and Tuesday of

MARCONI SYSTEM BEING EXTENDED

Whole Earth Will Be Covered
Presently With Wireless
Aerials

Working, being built or about to be built, are the following Marconi wireless long-distance stations:

American—San Francisco, Boston, New York, Belmar, N. J., Glace Bay, Nova Scotia; Honolulu, Havana, Panama, Rio de Janeiro and Buenos Aires.

European—London, Clifton, Ireland; Colliano, Italy, and Stavangar, Norway.

African—Mombasa, British East Africa; Pretoria, South Africa; Alexandria, Egypt; Mogadiscio, Italian North Africa and Mascara.

Asiatic—Yokohama, Hongkong, Singapore, Bangalore and Manila.

Australasian—One station in New Zealand and one at Port Darwin, Australia.

Of these stations, the one at Buenos Aires is to work over the longest distance, being planned with 600-foot masts to talk direct with the station at London.

The Mombasa station, now under construction, is to have three sets of aerials, one for the Alexandria station, one for the Pretoria station and one for the Singapore station. This is one of the five stations being built under the British imperial contract, the others being Singapore, Alexandria, Bangalore and Pretoria.

The Y. W. C. A. class will meet for the next class Monday evening at the Homestead, Y. W. C. A., at 7:30 o'clock in place of 7 as scheduled. The practical instruction given by Mrs. Cousins will be of value to all women.

The Shakespeare class will meet for the regular study of "Romeo and Juliet." This class is free to members of the association and will meet bi-weekly at the Homestead. Those who are interested in the study are invited to read as much of the play as possible before Monday evening and come prepared with books.

The German class will meet for the regular lesson Monday at 7:30 and it is hoped that all who are contemplating coming into the class this term will do so as the class is progressing so far that registrations of beginners will have to be closed. Mr. Emil Engelhardt is the teacher of the class.

The domestic science class will meet at the College of Hawaii. The lesson will be "Cream Soups." A second class has been formed which will meet on Tuesday evenings at the same place and the same hour.

Net importation of gold by Germany in September was \$21,000,000, the largest of any month in years. For nine months net importation has been \$71,200,000, against \$34,200,000 for the same period of 1912 and \$26,600,000 in 1911.

Hamburg-American line will shortly issue 30,000,000 marks of new capital at 118. During 1912 the company spent 48,000,000 marks on new tonnage. New capital is in furtherance of company's enormous building program.

Last week, the Hamakua district was visited by heavy rains. The roads suffered to some extent through the downpour, owing to their being so dry and dusty. But with little work they will soon be fixed. It was water they wanted, for the people are fully accustomed to bad roads in the Hamakua district.

As a result of a gambling game in one of the camps at Kawela last week, a Filipino became enraged over his defeat and for revenge killed one of his countrymen with a pair of scissors. The slayer was arrested shortly afterwards, and was brought before the local court, to be passed on to the grand jury, at present sitting in Hilo.

Mr. Jager, who has taken charge of the sisal plantation at Kailua, says that he has an extra shift of men, and is independent of the local labor supply. If the latter are not polite, he lets them out without flourish. Mr. Jager will make a success of the industry down there if anyone can.

The Honolulu franchise bill as amended by the last territorial legislature was introduced the other day. It will not be acted upon until the regular session in December. Also the Hilo street railway franchise amended to extend the time within which certain work should be accomplished and also increasing the additional issuance of stock was introduced.

Work on the Hilo federal building should soon be begun, some time next spring, as the plans are now ready and a call for bids may be issued any day now. In order to allow the firms on the coast and those in the territory to bid, the time has been extended to January 15, 1914, as the date for opening the bids. So that I look for start of work perhaps in February or March.

Congress is hardly doing any work now, owing to the continued absence of a great number of senators and representatives. Mr. Mann, the minority leader, calls for a roll call at every

**Preliminary
Preliminary
Christmas Announcement**

OUR stock of Men's and Boys' Wearing Apparel and Dress Accessories is in splendid shape for early Christmas shopping. Never has the line been so varied, the choice so good, the prices more reasonable, the stock so complete.

Ladies will find here those articles so well received by the other sex. We will assist the Gentle Sex in every possible way to make shopping easier, and to prevent undesirable duplication of gifts.

Herewith are some suggestions: we call particular attention to the prices—

YOUNG DESHA SAYS THAT PINKHAM WILL BE CONFIRMED SOON

[Special Star-Bulletin Correspondence] HILO, Nov. 14.—In another letter received from Jack Desha by his father containing much national gossip of local interest, he makes the statement that he believes that Pinkham will soon be confirmed. The letter follows in full:

Dear Dad: You have, undoubtedly, heard by this time that Mr. Pinkham's name was sent to the senate for confirmation, he having been approved by the senate committee on Pacific Islands and Porto Rico. Senator Williams of Mississippi, however, has opposed confirmation up to this time, although it is believed that ultimately Mr. Pinkham will be confirmed, perhaps by next week or the week after, at the latest.

No new names for positions, appointed by the president, have been sent in lately, with the exception of Mr. McCann of Tennessee, for United States district attorney. He has not yet been confirmed but will undoubtedly be within a short time. He has the backing of, at least, two of the cabinet, namely the attorney-general and the secretary of the treasury, both former Tennesseans.

The Honolulu franchise bill as amended by the last territorial legislature was introduced the other day. It will not be acted upon until the regular session in December. Also the Hilo street railway franchise amended to extend the time within which certain work should be accomplished and also increasing the additional issuance of stock was introduced. Work on the Hilo federal building should soon be begun, some time next spring, as the plans are now ready and a call for bids may be issued any day now. In order to allow the firms on the coast and those in the territory to bid, the time has been extended to January 15, 1914, as the date for opening the bids. So that I look for start of work perhaps in February or March.

Congress is hardly doing any work now, owing to the continued absence of a great number of senators and representatives. Mr. Mann, the minority leader, calls for a roll call at every

AN EASY WAY TO GET FAT AND BE STRONG

The trouble with most thin folks who wish to gain weight is that they insist on rugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through its regenerative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of your body. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. Your druggist has it and will refund your money if you are not satisfied, as per the guarantee found in every package.

Caution:—While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles it should not be taken by those who do not wish to gain ten pounds or more.

Colonel Theodore Roosevelt, after a twelve hour stay in Montevideo, had left for Buenos Ayres on the scout ship Uruguay.

CATTLE THIEVES GET FROM THREE TO FIFTEEN MONTHS' JAIL SENTENCE

[Special Star-Bulletin Correspondence] HILO, Nov. 14.—Fifteen months is the longest sentence that was drawn by any of the so-called Honokaa cattle thieves, this being given to Manuel Nobriga, on two indictments to which he entered pleas of guilty. He was credited with being the ringleader of the expeditions of him and three other Portuguese boys who were accused of stealing cattle from the Honokaa plantation and the Parker ranch. If he was not the ringleader, the court at least believed that he got all the profits out of the cattle rustling as he was the owner of a meat market from which the beef was sold.

Nobriga and two of the others were sentenced yesterday morning. John Gomes de Silva was sentenced to 24 months and Manuel Gomes de Silva to three months. Louis Gomes, who provided the prosecution with most of the evidence, was given his liberty. He was the youngest of the four. None of them is over 23 years of age.

All the boys pleaded guilty when the charge was changed from larceny in the first degree to the second degree, the court being assured last Tuesday morning that they would do so, by Attorney Irwin, who appeared for two of the youths.

TWO SUNDAY SCHOOL INSTITUTES NEXT WEEK

A Sunday school institute will be held in the Kaunakapili Church on Monday evening, Nov. 18th at 7:30 o'clock. It will be conducted by Rev. John P. Erdman and Rev. Henry P. Judd. Subjects of interest to all Sunday school workers will be discussed, and a hearty invitation is herewith extended to all interested to attend this institute.

CARD OF THANKS.

REV. C. G. BURNHAM HOME FROM MAINLAND

[Special Star-Bulletin Correspondence] WAILUKU, Maui, Nov. 14.—Rev. Collins G. Burnham, the agent of the Hawaiian board for the Lahaina district of Maui, returned with Mrs. Burnham last Wednesday evening. They have been in the States for an extended vacation of about seven months. The larger part of the time they were in New England. Mr. Burnham was in great demand as a preacher and lecturer, but generally refrained from addressing audiences at a distance from his summering resort. He consented to preach in his old church at Chitopee, Mass., and visited Bowdoin college, his alma mater. During the last few weeks, Mr. and Mrs. Burnham have been attending the National Council in Kansas City, to which they were both delegates from the Maui association of churches. Mr. Burnham will speak in Wailuku on Thursday morning at the Wailuku Union church before the Central Maui ministers upon the council held in Kansas City. On Sunday he begins his services at Hale Aloha in Lahaina and his work as agent for the board on West Maui. During his absence Rev. R. B. Dodge of Wailuku has been supplying at the Hale Aloha service.

CARPENTRY IN THE SCHOOLS.

Woodworking exercises for the Agricultural school shop is the title of a booklet recently published by Hall B. White, at University Farm, Minnesota. It is published primarily to meet the demand of the schools for suitable carpenter shop exercises. It shows not only photographs of finished articles, but drawings with dimensions and other help for use in turning out many useful pieces of work.

Although school work and exercises were given the first consideration, the booklet will be useful in the plantation shop, especially if used with Farmers' Bulletin 347, which may be secured by addressing the United States department of agriculture, Washington, D. C.

A number of Honolulu teachers are receiving practical instruction in elementary woodwork at the College of Hawaii.

PHOTOGRAPHIC ART CALENDARS

Make Splendid, Tho Inexpensive, Christmas Gifts

Hand-colored Photographs of beautiful scenes in the Islands, pictures showing different racial types, and photos of the fast disappearing Hawaiian characteristics of daily life. Photographs were taken by Honolulu's best photographers and colored true to nature. They cost only 25c, 50c, \$1, \$1.50. Calendars on which the photo is in Black and White only, \$1.75. (Should be mailed soon, to ensure delivery in far distant places.)
